

FULL FACE MASK FOR SELF-CONTAINED BREATHING APPARATUS SET

PANORAMASQUE

The Panoramasque is a full-face mask with a wide field of vision without any optical distortion, providing a good seal, a comfort of use and fully approved for all applications.

Fire

Oil & Gas

Chemical

Nuclear

COMFORT

- Positive pressure mask
- Wide panoramic field of vision, without any optical distortion
- The facepiece, internal half-mask and skirt are made of high-performance EPDM (special polymer). Its structure provides optimal resistance in fire and chemical environments
- Ergonomic design to suit all face shapes, one size fits all

PERFORMANCE

- Polycarbonate lens with anti-scratch coating (optional Triplex lens)
- External speech diaphragm to optimise communication (compatible with kit com radio)
- Compatible with both quick click positive pressure demand valves:
 - Zenith automatic demand valve. The valve is triggered automatically when connected to the mask and closed when disconnected. The low breathing resistance ensures excellent breathing performance at any level of work rate. Located by two attachment points
 - Sx-Pro first breath activated demand valve. Compact, ergonomic and robust, it offers excellent respiratory comfort for any level of users workload, thanks to minimal breathing resistance. Equipped with two large attachment points, it can be donned or removed easily when wearing gloves

- 'Air-Klick' system allows the user to click valves easily into place
- Optimal mask adjustment thanks to five-point head strap (optional two points mask connection and hair net)
- Flame-retardant cotton neck strap

EASY TO MAINTAIN

- Simple maintenance with easy cleaning

PANORAMASQUE

SPECIFICATIONS

Weight	Approximately 585 g
Facepiece and internal half-mask	EPDM (special polymer)
Lens	polycarbonate with anti-scratch coating
