

## FULL FACE MASK FOR SELF-CONTAINED BREATHING APPARATUS SET

OPTI-PRO

The Opti-Pro is a full-face mask with a modern design, offering an extreme field of vision, optimal comfort due to the silicon and ensure a good seal.

Fire

Oil & Gas

Chemical

Nuclear

## COMFORT

- Positive pressure mask
- Wide field of vision, without any optical distortion
- Facepiece and internal half-mask made of high-quality silicone, providing increased durability and optimal comfort for the user
- Hood clip

## PERFORMANCE

- Impact-resistant polycarbonate lens with anti-scratch coating
- Specially designed lens to improve downward and side vision
- Silicone skirt ensures excellent sealing
- High-performance speech diaphragm allowing clear and audible communication and reinforced to ensure its integrity
- Compatible with both quick click positive pressure demand valves:
  - Zenith automatic demand valve. The valve is triggered automatically when connected to the mask and closed when disconnected. The low breathing resistance ensures excellent breathing performance at any level of work rate. Located by two attachment points
  - Sx-Pro first breath activated demand valve. Compact, ergonomic and robust, it offers excellent respiratory comfort for any level of users workload, thanks to minimal breathing resistance. Equipped with two large attachment points, it can

be donned or removed easily when wearing gloves

- 'Air-Klick' system allows the user to click valves easily into place
- Optimal mask adjustment thanks to five-point head straps (optional two points mask connection "Kit KS" and hair net)
- Fire-retardant cotton neck strap
- Size S/M/L

## EASY TO MAINTAIN

- Assembled and disassembled for cleaning without tool
- Simple component design

## SPECIFICATIONS

|                                  |  |
|----------------------------------|--|
| Weight                           | Approximately 705 g                                      |
| Facepiece and internal half-mask | Silicone   |
| Lens                             | Impact-resistant polycarbonate with anti-scratch coating |
| Full-face mask type-approval     | EN 136 Class III   |
| Full-face mask size              | S/M/L  |
