

Dräger Mobile Printer BT Accessories

The Dräger Mobile Printer BT let's you print wirelessly from any compatible Dräger testing device within a 16-yard range. The small, lightweight mobile printer fastens to your belt with a clip. It is easy to operate, using only two buttons. Illuminated symbols inform you about the status of the device.

Benefits

Convenient Bluetooth® communication

The Dräger Mobile Printer BT is a Bluetooth® printer. This type of connection enables you to print from any compatible Dräger testing device within a range of up to 16 yards. Simply position the printer within range of the Dräger testing device as needed, whether up-close or further away.

Easy pairing

The Dräger Mobile Printer BT uses near field communication (NFC) technology. To pair it with another NFC-compatible device, simply hold the two Bluetooth® devices up to each other.

Light weight

The printer weighs only 13.5 ounces (including battery and paper), so it can easily be carried on a utility belt. Now, you can print any time without interrupting your workflow.

Easy to operate

The device is extremely easy to operate, using only two buttons: the OK button switches the printer on and off. The other button controls the paper feeder. Push both buttons simultaneously to perform a self-test on the printer. The three illuminated LED symbols indicate the current status of the device: error messages, battery charge level and Bluetooth® connectivity.

Accessories

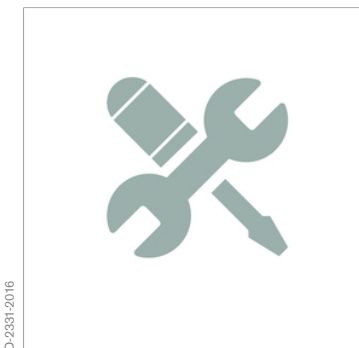

Printer paper

The high-quality thermal printing paper with a 1.57 inch roll diameter is suitable for the Dräger Mobile Printer BT. It is available in two different versions, with five rolls per package:

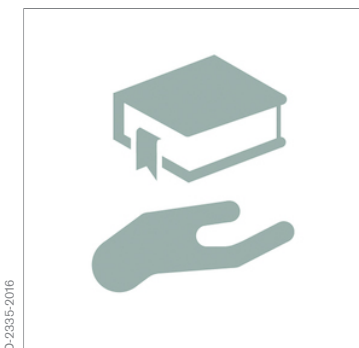

- 10-year long-term stability with marking
- 25-year long-term stability with marking

Services

Product Service

Our product service provides support with different service packages – in our workshops or directly on your premises. Care, maintenance and servicing are crucial for safety and reliability – but careful maintenance and care are a must, even when it comes to commercial considerations. Preventive checks, ongoing care and use of original replacement parts improve the longevity of your investment.

Training

The Dräger Academy has shared its solid, practical knowledge for over 40 years. We hold more than 2,400 training courses each year, on a range of over 600 topics, with more than 110 authorized trainers. We equip your staff with practical knowledge and ensure that what they learn can be applied effectively, both day-to-day and, more importantly, whenever critical situations occur. We will be pleased to develop a customised training program for you.

Services

D-2330-2016

Rental Service

From bridging a temporary shortage of equipment to procuring special equipment for applications involving specific requirements: If you only need to cover a temporary higher demand, then Dräger Rental Service with over 65,000 pieces of rental equipment is an economical alternative to purchasing. Fast, straightforward and with a wide range of additional services available upon request.

D-2325-2016

Shutdown Safety Service

You need a comprehensive safety technology solution which equips you optimally for your project. You have to comply with many different legal requirements – even under intense time pressure. A potential conflict could arise between maximum efficiency and the highest possible degree of safety. We help you to establish a balance: Our Shutdown Safety Service is a solution which takes into account all of the requirements for a shutdown, and your individual needs in particular.

D-2332-2016

On-site Safety Service

Rental shop, personnel services or comprehensive safety management: Our on-site safety services provide you with support for all projects involving special safety challenges – and of course also during your day-to-day operations.
